President's Letter - David Grantham

Next meeting will be on the August 3rd at 9:00 am at the club field. Come and join us at the meetings

There not much going on at the airfield at this time. It has just been too hot to be out in it. You know that we are in our hurricane and rainy season. So far the club field is looking good and is dry for now, so come out and fly.

From time to time I have been out to the field and from the main gate to the

field there has been water on the road in spot. We need to stay off the grass and go through the water slowly. There are water lines underground both sides of the road so stay on the road and keeping off the grass.

Soon as I can get going again hope to have some help to fix the road and fill in the low spot to get rid of the water .

President, David Grantham

SAFETY OFFICERS REPORT

Hello from the safety desk. Nothing really to report on. Hopefully it will stop raining and cool off a bit soon. For all of you flying in the heat kudos. The only thing I have to mention is that it has been brought to my attention that it might be a good idea to remove the prop on electric planes when working on them. As you all know they can do some damage to the old fingers and hands.

Dave, Rod, Kim & Wilf

Hi All, this month I have not had to speak to anyone with regard to their unsafe flying, or rule breaking. That's the good news !However I have noticed, on occasions, some folk are still working on electric prop A/C without removing the prop.

One answer was, "I have a safety switch on my transmitter" Well that's all very fine, if you have remembered to switch it on. Lets be honest, how many of us, me included, have turned on A/C without the TX??

August, 2019

It takes probably less than a minute to remove the prop, but about ten days until you get the stitches out, if there is anything left to stitch. Be safe, take it off!! Safe flying.

Wilf. Safety Officer

Upcoming Events

CSMS next meeting is Saturday August 3rd. Plan to come to the field and fly early and then attend the meeting.

10/05/19 Sarasota, FL GOLDEN AGE & LIGHT PLANEFLY-IN Contact John Hall at 941-704-9375 for further info.

Nice bipe shown off by Jim Book

Barry & Mike looking for something?

RECENTLY SEEN AT FIELD:

Wilf shows off his jet

Alex shows off his bipe.
