The CSMS Skywriter is published monthly by the Charlotte Sports Modelers Society. We reserve the right to edit any submitted material. The editor of this publication or the officers of the CSMS club shall not be held liable for errors or omissions.

lunch, general flying, test what you bought day, Nov 4th., welcome our returning friends back from the north. I'll be back in touch soon for further information on this event.

I'm still open for new ideas on club events, look forward to seeing you at next meeting, and thanks again for another successful breakfast with your participation

.PS I would like to remind members to add to the cookie jar when visiting the fridge for drinks. Please put dollar in the pot.

KimKim Klempner Pres. CSMS

## President's Letter - Kim Klempner

I have a few new things to share with you. Talked to Sam Stone about drainage issues, we have permission to do some light work to help with our drainage problems. It must dry up to achieve this work, without making a mess, probably October. We also talked about a well, to help clean our equipment and furniture. I'll have answer for next months letter, looking pretty positive for us.

We are still working on fixing our website, should be handled by next letter also.

I'm thinking of having a swap meet,

## SAFETY OFFICERS REPORT

Hopefully the rains will soon cease their daily flooding and the snowbirds are thinking about returning to Southwest Florida. So it's time to review the Club's and AMA's safety items. In order of importance:

1. The near edge of the runway (closest to the pilot stations) is the ZERO LINE. Absolutely NO FLYING is to take place on the pilot station side of the ZERO LINE. All flying is to take place past the ZERO LINE. If you intentionally fly past the ZERO LINE you will be ask to refrain. If you do not understand this please ask!

NEW HOBBY SHOP

SKYSHARK RADIO CONTROL

75 Mid Cape Terrace, Ste 7

Cape Coral, FL 33991

PH 239-800-1941

Hours: Mon-Fri 10 to 6

Sat 10 to 4

Sun by appointment

Upcoming Events

2. The runway is to be used for TAKEOFF's and LANDNG's only. Low high speed passes are to be conducted beyond the runway, NOT over the runway. All hovering (3D maneuvers) is to be done beyond the runway, NOT over the runway.
  
3. The line formed by the Pilot Stations and the White Line on the taxi way establishes the TAXI LINE. There is to be no TAXING behind this line.
  
4. The long white fence is the SAFETY LINE. Only pilots and their spotters are allowed beyond the SAFETY LINE. Anyone flying behind the SAFETY LINE will be GROUNDED for the rest of the day.

CSMS next meeting is on September 2nd at field at 9:00 AM. Plan to come to the field and fly early and then attend the meeting.
