CSMS May Club Meeting - 9:00 am Saturday July 10, 2021

President Report:

To all C.S.M.S. members the next club meeting will be July 10, 2021 at 9:00 am at the airfield. I know there are things that need to be done, but it is going to take some time. Please have patience.

I have some bad news, we have lost another good pilot and a good friend, George Golia. Some of us called him the guitar man, some of us called him the Harley-Davidson man and few of us knew him as cheerio man because of what he did to his airplane. So wherever he's at, I hope he's having a great time doing his thing. We will miss you George. Rest In Peace.
President - David Grantham

Vice-President Report:

Well, the rainy season is back. Welcome to Southwest Florida's summer time. The mowers are being serviced with new blades, oil and filter, gas filter and spark plugs and other necessary items. David Grantham picked up the mowers in his trailer and is having them serviced. Thank you, David. The new weed eater is being handled expertly by Bart Hutchison. Thank you, Bart. Tim Dyal installed a new LED light in our club building. Nice. Thanks Tim. I failed to mention it before, but Lee Ramsdell soloed his Aero Sport airplane and this past Saturday Richard Doran also soloed his Timber and Aero Sport. Congratulations to both Lee and Richard.
V.P - Eddie D. Mattingly

Safety Office Report:

Well another month has flown by. Most of our snow birds have gone north or where ever. We had a very fun month in spite of the windy conditions. A lot of comradey and just a general good time with a lot of flying. Best of all we had a safe month with no incidences. You guys are great. It's getting hotter every day so I am guessing flying will have to be real early in the morning. Be safe and enjoy the next month.

Safety officer - Dave Leifheit

"Now, which switch lowers the floats?"

"Does it go here? No, it goes here."

"Now that's a precision landing. Did anyone see me do that?"
