President Report:

CSMS May Club Meeting

9:00 am Saturday June 5, 2021

Please come out and join us at the meeting. Well as y'all know there not much going on out there at this time due to being very hot. But, for the ones that do come out we are trying to have fun out there. It has come to my attention that some club members are leaving people out there that are not club members. If you are not sure, just ask them if they are club members before you leave someone out there. Thank y'all and have a great day.

President - David Grantham

Vice-President Report:

Carol and I just returned from Nevada, Utah and Arizona last week. It had been eight years since we been there last. Had a wonderful time and Carol took a couple thousand photos as reference material for new paintings. She has been taking her iPad to the field to show some of the most beautiful scenery imaginable. If you would like to see some of the images just ask her. However, as much as we enjoyed the trip it was good to get home and go flying. This past Memorial Day weekend was some of the best flying weather in southwest Florida for some time. Hope it is an indication of things to come. See you at the flying field.

V.P - Eddie D. Mattingly

Safety Office Report:

Well another month has flown by. Most of our snow birds have gone north or where ever. We had a very fun month in spite of the windy conditions. A lot of comorodory and just a general good time with a lot of flying. Best of all we had a safe month with no incidences. You guys are great. It's getting hotter every day so I am guessing flying will have to be real early in the morning. Be safe and enjoy the next month.

Safety officer - Dave Leifheit
