## CSMS September Club Meeting - 9:00 am Saturday September 4, 2021

### President Report:

To all club members, the next club meeting will be September 4, 2021 at 9:00 AM at the airfield. Ya'll take it easy on the vice president; he is filling in for me as I'll be gone. There's still not much going on right now at the airfield because of the rain or wind or just too wet. There are some small jobs coming up when I get back from vacation. I know we talked about pulling the old pipes out and filling the ditch in so it can be mowed behind the flight stations. That would make it easy on the ones that weed eat and the mowers can do a better job mowing the grass. At this time I would like to say thanks to Eddie and Carol for keeping the airfield mowed and Bart for weed eating the ditch. Everybody have a great day and stay safe. President - David Grantham

### Vice-President Report:

Are the days getting shorter already or is that just the rain clouds blocking the sun again? We've been really lucky with the tropical storms and hurricanes this summer. I certainly hope our luck holds. Fall is just around the corner and great Florida flying weather will be upon us. Can't wait! We want to give a very special "THANKS" to Tim Dyal for the wonderful new 'Deck Roof' over our patio area.

V.P - Eddie D. Mattingly

### Safety Office Report:

Another month has flown by. There is nothing new to report and again I attribute that to all of you guy's special attention to safety at our great field. It doesn't sound like the weather has been too good for flying, but it should cool off soon and things will get back to normal. I will be back in Florida on the 19th of Sept and I am looking forward to seeing all my friends again and enjoying flying at our fantastic field. See you all soon.

Safety officer - Dave Leifheit

Richard assembling his new Timber Evolution. Pat is supervising.

Jim, Don and Dave. Yeah, they are working hard!

Barry pulling Clean-up Duty. "I never had to do this while serving on a sub-marine!"

Thank you, Tim Dyal, for the new roof over our deck. Looks really good.
